with us

'Circle of Trust' on the BiofuelCircle Platform:

1. Get discovered easily

Verified supplier badge gives you more visibility.

2. Establish reliability of your supplies

Get regular material quality tests for every 250 MT of supply or once every month to create an online record of the test results and build a strong quality profile.

3. Stand out as a reliable & credible supplier

Your supplier profile is your digital store-front. It gives you an opportunity to showcase your facility, processes, and practices which are part of vendor evaluation process of many of the leading buyers.

4. Avoid material rejections and losses

Get Pre-Dispatch Quality Approval with the on-field quality testing kit.*

*Added IoT functionality coming soon

For Every Prospective Buyer, A Verified Supplier's Badge is a Seal of

Reliable Supplies

Pre-approved Quality

Pre-qualified Supplier

Verified supplier badges are driven by Verification and Benchmarking process.

BiofuelCircle's 3-Step Verification Process

Get started with the verification process in just a few clicks!

Fill Out your Profile Page

Provide supporting data and documents where necessary

On-site Survey by Independent Surveyor

Facility inspection and validation of the information provided by you

Verification by BiofuelCircle

Final inspection to ensure all documentary evidence is in place
